

RULES OF PARTICIPATION

Dear colleagues! To participate in the conference:

1. **Fill in the online application form** on the according page of the conference website www.ei-conf.com, which includes a report title, authors, selection of the thematic areas, abstract (keywords). The language of registration and submission of materials: Ukrainian and English (necessarily in two languages).

Please note that you will receive participant ID after the registration which corresponds to one report and one article. The maximum number of authors of one report – no more than four. If necessary, the information provided during registration can be edited before the end of the set terms, entering the ID and password. Requirements for registration and abstracts (keywords) – only text without symbols, formulas, tables and figures. The information provided by you during the registration will be used for the formation of badges, conference abstracts collection, therefore we ask you to **pay attention in filling in all the fields of the registration form**.

2. **Upload an article** (if necessary) as an attachment according to the proposed sample on this site as an attached file. This can be done during the registration or thereafter during deadlines of submission. The full list of registration requirements and the example of an article is posted on the conference website www.ei-conf.com [publication of articles].

You will be sent a separate letter about your registration and article receiving by the editorial board.

3. **Transfer the registration fee** in the amount that corresponds to the established terms of registration and the provision of materials for publication.

This amount is intended to ensure participants (for every ID) of a complete set of scientific papers, souvenirs, amicable dinner, coffee breaks as well as technical support of the Conference.

The registration fee covers the cost of printing publication in a volume of 6 full pages. Additional page publication cost (after 6 pages) is 70 UAH/page.

Attention! The registered participant of the conference (to whom the ID is given) is everyone who provided the full registration data of the participant and the registration fee within the deadlines. For each registered conference participant, a conference program and an official e-invitation are sent in advance. Participants who download the article in time for the conference site and pay the organization fee will receive a **copy of the special issue of the professional scientific and technical collection "Energy efficiency in construction and architecture"**.

Accommodation, meals, travel tickets, as well as various cultural events agreed with the organizing committee on an individual basis.

Transportation from the stop "Railway station" South"- to stop "str. Osvita" by taxi No. 401 or No.223.

For more travel options please visit the website of Kyiv National University of Construction and Architecture or website of the conference www.ei-conf.com → [Contact information].

CONFERENCE PROGRAM

Scientific program

The topic of meetings:

-Energy efficiency of architecture and urban planning,
the modern energy efficiency of constructive solving and
materials. Mathematics and computer modeling in the
investigation of objects, processes and systems of energy
saving.

-Development of legislative basis in a branch of energy
efficiency. Energy management and economy of energy
resources saving. Modern educational and informational
projects focused on energy efficiency.

-Energy resource saving. Energy efficiency systems
and technologies of power generation, transportation and
consumption of energy. Computer technologies of
designing and calculation of heating and gas supply
systems.

-Technologies of unconventional and renewable
energy resources in energy saving of architecture and
building.

- Integration of energy efficiency problems in
architecture and building: ideology and conceptions of the
development; integrated use of energy saving
architectural, constructive, engineering and technological
solutions.

EXPOSITIONAL PROGRAM

Participants will be given the opportunity to present
their scientific-technical developments with energy saving
architecture, energy saving technologies, scientific
methodological designs and etc. during the conference

CULTURAL PROGRAM

In the intervals between the meetings of the
conference, all interested participants are invited to
examine the demonstration models and samples of the
Scientific and Educational Center for designing and
research of buildings with close to zero energy
consumption of the KNUBA (a. 506-510, 5th floor, central
educational building).

CONFERENCE LANGUAGES:

Ukrainian, English, Polish

REQUIREMENTS FOR ABSTRACTS

Abstracts include keywords and abstracts of the report, which
should be downloaded on the registration page in the
corresponding form as text without symbols, formulas, tables
and figures.

Theses of the report should describe the main point of the
report, and their volume should not exceed 2 000 characters
(with spaces). Keywords must contain no more than five titles.
